

Showcase alumni data – right on your school website!

The LinkedIn Alumni Tool: A free plugin for schools

What is the Alumni Tool plugin?

A website widget that shows off your graduates' career paths in a small, simple, and visual module.

This valuable tool allows you to...

Stand out with **unique data** on where alumni work and live, and what industry they're in

Help **prospective students** (and their parents) understand what's possible by coming to your school

Create connections among alumni, students, and donors

How do I get started?

- Many schools (and *US News and World Report's* school pages) have already added this tool. It's now available to any school without a contract.
- Getting up and running is easy. **Check out these 3 steps for web developers.**
- Recommended placement is on your **home**, **admissions**, or **alumni** page.
- Got questions? Check out our **FAQs** and support forums **here**.
